

29th April 2021

Dear Parents & Carers,

Our in school test and trace system has identified the possibility that there is a confirmed case of COVID-19 within your son/daughters group bubble. As you know, we have put extensive measures in place to ensure that our students and staff are as safe as possible as we have welcomed our young people back to school. This is an isolated individual case in the bubble so please don't be alarmed, but it is a reminder that we all need to remain vigilant, both in school and in the wider community.

Public Health England have directed that only those who have had extended contact with the person who has tested positive should self-isolate. Every person who is required to isolate has been notified to do so. Providing your child remains well, they should continue to attend school as normal. We will keep this under review.

We are continuing to monitor the situation and are working closely with Public Health England. This letter is to inform you of the current situation and provide advice on how to support your child; please be assured that we will keep in regular contact.

Please see below the direct advice and communication from Public Health England:

We know that for most people, coronavirus (COVID-19) will be a mild illness, but we all have a responsibility to ensure that we do all we can to reduce transmission to others.

What to do if your child develops symptoms of COVID 19

If your child develops symptoms of COVID-19, you should organise for your child to be tested via the NHS online portal or by calling 119. Your household should isolate until you receive the test results giving the all clear.

Symptoms of COVID 19

The most common symptoms of coronavirus (COVID-19) are recent onset of:

- new continuous cough and/or
- high temperature and/or
- a loss of, or change in, normal sense of taste or smell

For most people, coronavirus (COVID-19) will be a mild illness.

How to stop COVID-19 spreading

There are things you can do to help reduce the risk of you and anyone you live with getting ill with COVID-19

Do:

- wash your hands with soap and water often – do this for at least 20 seconds

- use hand sanitiser gel if soap and water are not available
- wash your hands as soon as you get home
- cover your mouth and nose with a tissue or your sleeve (not your hands) when you cough or sneeze
- put used tissues in the bin immediately and wash your hands afterwards

Further Information

Further information is available at <https://www.nhs.uk/conditions/coronavirus-covid-19/>

I know that this is a lot of information to take on board. If you have any questions or queries, please send these via MCAS. If you do not have access to the MCAS app, and you have a question, you can call or email the academy:
