

Dear Students & Families,

I am writing to let you know that as an Oasis Academy student you are now able to access the full range of Pearson Revise textbooks and tools free of charge using **your usual Oasis IT details**.

The guidance below will show you how to do this. If you do have any difficulties logging on, please seek support at your academy in the usual way.

Do make sure that you are aware of which exam board and specification you are studying, for each of your qualifications, so that you use the correct guide to help you prepare.

We do hope that access to these guides helps you in the run up to your GCSE examinations.

Yours faithfully,

Louise Lee

Regional Director, Oasis Community Learning

How to Access Pearson Revise resources

Step 1

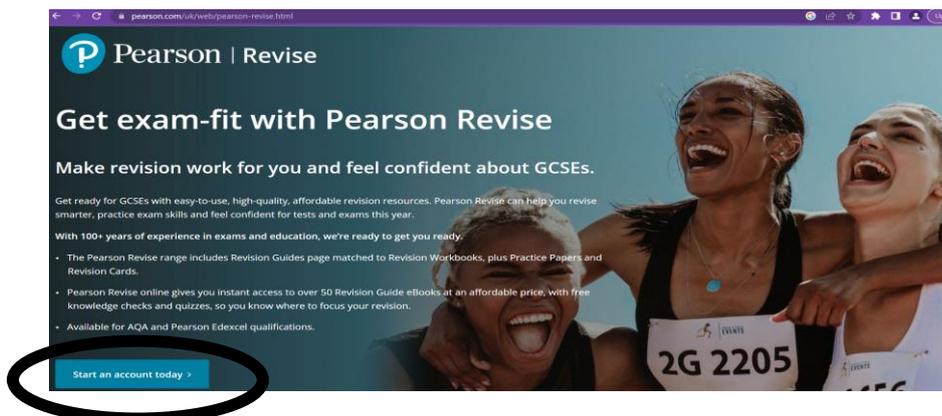

On your Oasis Horizons iPad, open Safari and go to Pearson Revise at:

<https://reviseonline.pearson.com/school/register/?org=oasis>

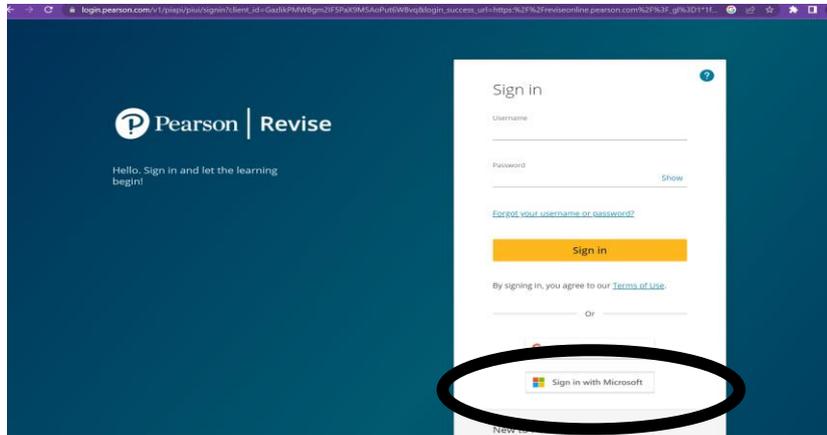

Step 2

On the bottom left of the landing page, choose 'Start an account today'.

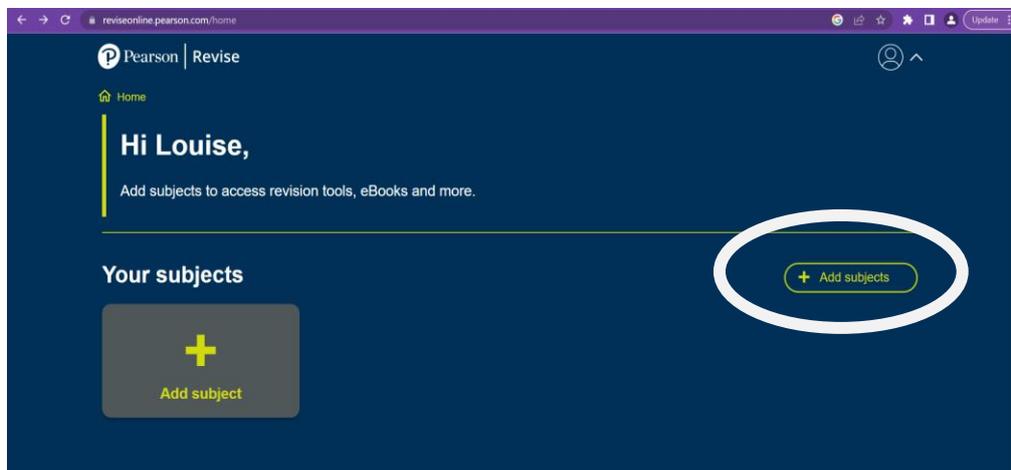

Step 3

On the next page, choose 'Sign in with Microsoft' (DO NOT choose 'Create an account').

Step 4

You will then be logged in using your Oasis details and taken to a landing page with your name at the top. From here you can click 'Add Subjects' and choose all the subjects you are studying for which there are guides available. You only have to set this up once - the system will then remember you the next time you log in.

Remember to check the exam boards, subjects & modules that you are studying.
