

6th January 2023

RW/ajb

Dear Parent/Guardian,

Your child has been identified as having demonstrated a strong interest in geography through their knowledge and engagement within their lessons and have therefore been selected to attend an eco-club.

The club is known as the '**eco- schools green flag award**' and allows them the opportunity to develop their leadership skills and increase their knowledge about sustainability in a working setting, which are key to their future development in a range of subject and future careers.

They will work collaboratively as part of a team of other keen students to help the school improve the way in which the school functions whilst protecting the environment. For example, they will be involved in designing improvements to sustainability within the school, which could involve minimising the use of plastic, promoting recycling, or improving transport of pupils and teachers to and from school.

The club also offers the possibility for out of school trips to see places where successful sustainability projects have taken place such as the Etihad Stadium.

I request your support and encouragement in their attendance. Starting from **Monday 9th January**, the club will take place **every fortnight from 2:35pm in room 0.07** and will finish at **3:35pm**. If you would like further information, please contact myself, ross.woodcock@oasisoldham.org.

Thank you for your support,

Yours sincerely

Mr Woodcock
