

20th February 2023

FB/ajb

Dear Parent / Guardian,

As part of extracurricular activities in science we have teamed up with Wild Ed to work on an Eco project on the theme nature.

We have been offered an opportunity to visit a place called GROWE (Grass Roots Oldham Women's Enterprise) which is a community garden space in Failsworth, which aims to bring the local community together to learn new skills, provide services for each other and help nature.

The purpose of the visit is to gain inspiration of nature protection happening in the local community. The group will learn from experts with over 20 years of community growing experience, learn new skills and take hands-on action together. The group will use this inspiration and skills acquired to continue the work within school and the local area.

The visit will take place on Friday 24th February 2023 and is free for all students who wish to attend. We will be travelling by coach, leaving the academy at 8:45am, returning to the academy at 12:00pm.

Students are to wear academy uniform as normal.

Please complete the consent form on MCAS. If your child has had a change in any medical conditions, please ensure have you updated this on the MCAS app.

Yours sincerely,

Mrs Begum
Second in charge / Teacher of Science
